Cool Sites for Children and Young Adults

SEARCH ENGINES

Yahooligans
http://www.yahooligans.com/

Yahoo Sites are hand-picked to be appropriate for Young People. Also, unlike normal Yahoo, searches will not bring back matches found by crawling the web, if there is no match from within the Yahooligan listings. This prevents possibly objectionable sites from slipping onto the screen. Additionally, adult-oriented banner advertising will not appear within the service. Yahooligans is the oldest major directory for children, launched in March 1996.
